**MAKING POWER** has been our passion for over six decades. During that span bikes have changed, riders changed, and even the tools we use have changed, but our singular focus on making the best of the best has never waned. A flat torque curve still excites us, the rumble of a well-tuned exhaust gives us goosebumps and the satisfaction of buttoning up a freshly built engine continues to make our day. We hope you feel the same exhilaration each time you wick the throttle or maybe we contributed to that smile behind your helmet as you walk around your buddies stocker or perhaps it's that feeling in your chest as you listen to a perfect cam lope at a stoplight. Whichever it is, this is why we do what we do and why Proven Performance® has been and will always be our promise to you.

Performance exhaust and street legal used to be mutually exclusive features, forcing a rider to choose between making power and making sure factory warranties stayed intact. Not anymore! Welcome to the new world order of high performance that marries a real deal v-twin exhaust note with legit horsepower gains.

Red is a stock 114" Softail (75 hp & 99 torque)

Green is the same bike with one of the stubby and empty systems on the market (82 hp & 104 torque)

Blue is the S&S SuperStreet (82 hp & 109 torque). This 2:1 system is not only Street Legal, but produces more torque in the RPM zone that you ride in!

# PRECISION TAPPETS

High performance tappets are a cornerstone of the S&S line up and we are always looking to improve our products. After months of research and countless hours of testing we are excited to reveal the latest in performance tappets. The S&S Cycle Precision Tappets replace both our standard as well as premium tappets. Each Precision Tappet is hand assembled to exacting tolerances and designed for quiet operation and rapid pump up and all are made in the USA.

### FITMENT

- 2017–2020 big twins with Milwaukee-Eight® engine

### FEATURES

- Reduced valve train noise from start up to shut down
- Close tolerances for low leak down rates
- Fast pump up and superior high rpm performance
